

Ealing Music Therapy are recruiting Trustees to join our 30+year community based charity. There is an exciting opportunity to fill a number of governance roles. We are looking for parents/carers or teaching staff who have experience of children or young people who have received music therapy and/or are supporting youngsters who have special educational needs.

The Trustees meet three times a year in the evenings in Ealing. In between meetings, communication and decision making is via email and phone as necessary. We would ask new Trustees to commit for one year and then review and decide if they would like to continue after this period.

Our 5-10 year vision is to extend our services from currently supporting 100 children and young people to approximately 850 annually, and to raise the profile of EMT and music therapy as a clinical intervention across the borough of Ealing.

For further information on EMT please visit our website www.ealingmusictherapy.org.

We have recently developed a new brochure for schools. For an electronic copy please contact us at info@ealingmusictherapy.org
